

2. PROGRAMME DELIVERY AND OPERATIONS POLICY

Everyone Out provides a series of safe, stimulating, nature based programmes of education for primary aged tamaiti; through unstructured and tamaiti-led learning opportunities, in line with our philosophy. Programmes are based in the natural surroundings in the Wellington region. All kaiako employed by Everyone Out understand the importance of free movement and risky play in both the physical, social and cognitive development of ngā tamariki; and that to be outdoors is to nurture health and wellbeing - which are intrinsically and undeniably linked to our ability to learn.

The Everyone Out learning environment is set up and maintained in a way that offers an invitation for ngā tamariki to unpick and discover what the NZ Curriculum's Key Competencies look like for them as capable, confident individuals.

NZ Curriculum Key competencies:

- thinking.
- using language, symbols, and texts.
- managing self.
- relating to others.
- participating and contributing

Ngā kaiako work to ensure the strengths, interests and learning of each individual tamaiti are well supported and nourished, by catering for different ages and developmental stages, learning styles, genders and cultural backgrounds.
